Yes, we change!

Liebe Kolleginnen und Kollegen

Das wesentliche Merkmal der Plastischen und Ästhetischen Chirurgie ist, dass wir das Schicksal unserer Patienten durch unsere Verfahren ändern können. Wir können Fehlbildungen korrigieren, Tumor- und Unfalldefekte rekonstruieren und Altersveränderungen mildern, kurzum: Das Leben unserer Patientinnen und Patienten in Funktion und Qualität verbessern. Die Entwicklung unserer Gesellschaft mit ihren gestiegenen Anforderungen an unsere Ergebnisse, die Rolle der sozialen Medien und Entstehung neuer Technologien haben unsere Praxis verändert, weswegen wir uns auf unser Hauptthema „Veränderung“ konzentrieren wollen.

Es ist uns daher eine grosse Freude und Ehre, Sie zu unserem Kongress «Change» und «Eyes & around» der Schweizerischen Gesellschaft für Plastische Chirurgie und der Schweizerischen Gesellschaft für Ästhetische Chirurgie begrüßen zu dürfen.

Es ist jedes Mal eine grosse Herausforderung für das wissenschaftliche Komitee, ein wissenschaftliches und innovatives Programm zusammenzustellen. Dank den vielen sehr guten Vortragseinreichungen haben wir ein interessantes Programm mit aktuellen Themen zusammenstellen können.

Wir haben zudem die Gelegenheit, dass unsere Sponsoren uns die neuesten Technologien und Produkte vorstellen werden. Referenten aus der ganzen Schweiz und aus dem Ausland bereit sind, ihre Erfahrungen mit uns zu teilen, sodass die Mitglieder unserer Gesellschaften und Teilnehmer des Kongresses, neueste Entwicklungen und Erkenntnisse in ihre tägliche Praxis einfließen lassen können.

Wir hoffen, dass wir Ihre Erwartungen erfüllen können und wünschen Ihnen einen erfolgreichen Kongress.

Yes, we change!

Chères collègues, chers collègues

La caractéristique essentielle de la chirurgie plastique et esthétique est que nous pouvons changer le destin de nos patients grâce à nos procédures. Nous pouvons corriger des malformations, reconstruire des défauts dus à des tumeurs ou à des accidents et atténuer les changements liés à l'âge, bref, améliorer la vie de nos patients en termes de fonction et de qualité. L'évolution de notre société, avec ses exigences accrues en matière de résultats, le rôle des médias sociaux et l'émergence de nouvelles technologies ont modifié notre pratique, c'est pourquoi nous souhaitons nous concentrer sur notre thème principal, le « changement ».

C'est un grand plaisir et un honneur de vous accueillir à notre congrès « Change » et « Eyes & around » de la Société Suisse de Chirurgie Plastique et de la Société Suisse de Chirurgie Esthétique.

Chaque fois, c'est un grand défi pour le comité scientifique d'organiser un programme scientifique et innovant. Grâce aux nombreuses et excellentes soumissions de abstracts, nous avons pu composer un programme intéressant avec des thèmes actuels.

Nous aurons également l'occasion d'entendre nos sponsors nous présenter les dernières technologies et produits. Des intervenants de toute la Suisse et de l'étranger sont prêts à partager leurs expériences avec nous, afin que les membres de nos sociétés et les participants au congrès puissent intégrer les derniers développements et connaissances dans leur pratique quotidienne.

Nous espérons répondre à vos attentes et vous souhaitons un excellent congrès.
