

5th International Basel Symposium in Rhinosurgery

Scientific Symposium
Cadaveric Dissection
Functional Rhinologic Diagnostics

**At the University Hospital Basel,
08.- 09. Feb. 2019**

**Plastic, Reconstructive, Aesthetic
and Hand Surgery**

Hals-Nasen-Ohrenklinik

Dear Colleagues

On behalf of the Departments of Plastic Surgery and ENT we would like to invite you to the

5th Basel Symposium on Rhinosurgery

which also will be our first international symposium with English, French and German as congress languages.

This time, we will not only be offering you the well known cadaveric dissection course on Friday, but also give you the opportunity to learn from the experts in terms of functional preoperative assessments, rhinometric and rhinomanometric examinations and interpretation of the findings. You will also have the opportunity for self testings.

Again, the scientific symposium will take place on Saturday, both with local and international opinion leaders in rhinosurgery.

We are looking very much forward to meet you in Basel.

Plastic, Reconstructive, Aesthetic and Hand Surgery
